**Location: Career Pathways School**

**We hope to see you at our next Principal Advisory Council meeting!**

School councils are an important forum through which members of school communities play an advisory role in school improvement planning. Key factors in collaborative relationships are building meaningful, two-way communication and supporting respectful interactions among education partners. School council is a structured group of parents, principals, teachers, secondary students and community representatives whose purpose is to advise the principal and the school board regarding matters relating to the school. It is a means for parents and community members to work together with the school to support and enhance student learning. Respectful discussion is always encouraged.

## Academic Achievement Award Semester 1
